

## Internet Credit Card Processing

Internet Credit Card Processing is a new enhancement to CM/ECF. This module enables filers to pay filing fees directly to the U.S. Treasury via the internet.

Upon filing a pleading which requires a fee, users will be prompted to pay their filing fee. The following are instructions as to how to pay a filing fee:

Summary of Charges screen will display with two options: **Pay Now** or **Continue Filing**.

- Click **Pay Now** if you are done filing and ready to pay or
- Click **Continue Filing** to exit the payment screen and view the *Notice of Electronic Filing* (NEF). The summary of current charges screen will display at the end of each additional filing until payment has been made.

**NOTE: If fees are not paid by midnight of the date of filing, the court will block access to your account. The system will only allow you to make a payment. Once all outstanding fees are paid, your account will be unlocked.**

Upon completion of all filings for the day, click **Pay Now** and follow directions below for entering your credit card information.

If you have selected **Pay Now**, complete the following information:

1. Cardholder name, street address and zip code are automatically completed.
2. Use the drop down arrow to select the **Card Type**
3. Enter Credit Card Number
4. Use the drop down arrows to select month of expiration and enter the year
5. Click **Continue** to go to the next screen. Click **Quit** to exit from the payment screen.

**NOTE: The fields required are those designated with an asterisk (\*).**

### Payment Summary and Authorization Screen

1. Place a checkmark in the box to authorize the card to be charged.
2. To receive a confirmation e-mail, enter your e-mail address twice.
3. Click **Make Payment** to complete the transaction.

## Transaction Confirmation Screen

This screen will display upon completion of your transaction. You may want to print a copy for your records.
